CONTROL YOUR LANDSCAPE LIGHTING

Tired of having to adjust your landscape lighting timer multiple times per year or when there is a power outage?

Astronomical Timers are available that automatically adjust dusk to dawn times and adjust to seasonal time changes. If power is lost, the timers will automatically adjust to the correct time when the power is restored. They also can be controlled by your smart phone allowing you to create different lighting scenes with your landscape lighting. Please call Rich for more information.

Offer expires
5/31/20
